

Julie Terpstra – Crew 835

Golden Nugget – (spark plug) Award

This Scouter's wealth of experience in Scouting and other youth programs have provided a huge boost to her Crew's program and extended its reach well outside the traditional geographic area of the charter organization. She joined this Venturing Crew a few years ago along with her granddaughter, and has quickly become a key member of the Crew leadership team. Not only has she been very active in helping the youth to plan and execute a variety of activities, she has also helped lead the Crew's annual Boundary Waters trip and other campouts as well. Her extremely strong faith sets a great example for both the youth and the adult leaders. Her extreme positive attitude and enthusiasm for Scouting and character development is contagious. Although she is widely known in the district for her many contributions to Boy Scouting, we would like to recognize her continued support and success in helping to improve the Venturing program as well.

Julie Terpstra of Crew 835 is truly one of Lake Minnetonka District's "Gold Nuggets".
