

- AVIATION DAY -

Information Flyer

May 30, 2015

Buffalo Municipal Airport, Buffalo, MN

8:00AM – 9:00PM

Come For The Day!

Join us for Aviation Day on Saturday, May 30 at the Buffalo airport to learn all about flying. This exciting event includes an opportunity for a limited number of Scouts to actually fly as passengers in private planes! This is a joint event between Lake Minnetonka and Crow River Districts. The event includes numerous aircraft, cockpit simulators, unmanned aircraft demonstrations (drones), Air Force and Navy ROTC, a flying air show, skydivers, experimental aircraft, Aviation and Weather merit badges, a "USO"-style talent show and MORE!

Price: \$20.00 Youths, \$17.25 Adults, and you **MUST REGISTER AHEAD OF TIME**. Registration includes admission and a very cool patch (while they last). Pack your own lunch and supplies for the day, or purchase food at a number of nearby locations. Any participants in the Spring Camporee are automatically registered for this event. But if your Troop is not planning to attend the camporee you can still attend! All Boy Scouts, Webelos and Venturers are invited!

You will not need the whole troop to sign up. Obviously any Troop or Crew can still register to participate in the Camporee, but you can also register online and attend as patrol, den, family, or a single Scout and parent and participate in Aviation Day! Register using the link below.

Mike Wiskus of West Metro Aviation will be bringing a stunt plane to show off his flying skills. A few lucky scouts will also be able to fly with Mike by entering the "I CAN FLY" program at: <http://sportaerobatics.wix.com/ican>

Finally, we have another exciting optional activity of **HELICOPTER RIDES!** Due to fuel and equipment expenses these rides would be available at a price of \$50/person (unlike the airplane rides that are free for those people who are selected for the flights). Depending on the number of people interested, we can bring in more helicopters. Please register using the link below.

All NSC Scouts and their guests are invited.

Many thanks to our host units, and our volunteer team from the Crow River and Lake Minnetonka Districts!

Program and Activities
