

Becky Lyman

Outstanding District Commissioner

This Scouter started as Women's President of LDS Packs and leadership as a Unit Commissioner last May. She quickly made contact with the LDS ADC mentor and after a ton of good questions, scheduled training for all the LDS Pack Unit Commissioners, who all met at Plymouth Ward and for three intense hours covered Unit Commissioner basic training, JTE, role of the District, and much more. This group of leaders are exceptional; with good attendance and follow through. Lake Minnetonka District is fortunate to have the success we have had with the Packs, which can be credited to her great leadership. She is also Unit Commissioner for the Hispanic Pack, which has its own set of unique challenges, and has done a very nice job of bringing District resources to them and working with them on JTE 2.0. Though her first key Scout leadership position at this level, she has quickly learned objectives and requirements, bringing strong leadership to the other Commissioners and units under her direction.

We are pleased to name Becky Lyman as an Outstanding Unit Commissioner in the lake Minnetonka District.
