## Camporee Policies

The following rules were made to help us have a successful and safe camping experience. It is the responsibility of the adults in charge to see that Scouts know and understand these rules. Anyone violating them may be asked to leave the camp.

**Behavior: Scout Oath and Scout Law – applies to all Scouts and Scouters.** Please emphasize the “good sport” and “do your best” aspects of Scouting. First and foremost, we’re here to have fun.

**Vehicles:** Speed limit is 15 mph. No passengers in back of truck or trailer. Vehicles are limited to main roads and parking areas only. Trailers, if brought, must stay with vehicle parking in designated parking areas.

**Firearms:** Personal firearms, ammunition (live or expended), explosives, fireworks and toy weaponry are prohibited.

**Conservation:** Please conserve our natural resources. No cutting of brush or standing timber is allowed. Firewood must be purchased at the park at \$6.00 a bundle.

**Adults:** At least one responsible adult (21 or older) must be in camp at all times.

**Knives:** NO straight-bladed knives are allowed in camp.

**Lights out:** Scouts are not allowed out of their site after lights-out with the exception of to-and-from the latrines. Please respect others during lights-out. Scouters are asked to bring roaming Scouts to the headquarters at Shelter B after lights-out.

**Radios:** No radios, stereos, tape players, headsets, Game boys or related electronics, etc. are allowed in camp. Cell phone use by youth should be kept to a minimum.

**Registration of Units Outside of Lake Minnetonka District:** Registration is open to units outside Lake Minnetonka District.

**Refund Policy:** Refunds will be made at the discretion of the event chairman.

## 2018 Winter Camporee Klondike Derby

(Pages 8-11)

### RULES AND PROCEDURES

- REGISTERED SCOUTS. All participants must be registered with the BSA and the 2018 Lake Minnetonka District Winter Camporee.
- ADULT PARTICIPANTS: Any adult participants must be registered as an adult within their respective unit and have completed youth protection training
- TEAM SIZE. Teams should consist of six youth members and a Scoutmaster or Assistant Scoutmaster (who will participate only as a passenger in the sled). **IN ADDITION, the participant (the scoutmaster or assistant scoutmaster) may dress up as a yeti. A separate award from the Klondike Derby award will be award to the team with the best dressed yeti).** All participants should have current registration with the BSA.
- BE ON TIME. Arrive on the starting line for equipment inspection at least 15 minutes in advance of the assigned start time. Teams that arrive late will be reassigned to the end of the list.
- CLOSED TRAIL. The trail is closed to unauthorized adults. Any unit violating this rule – whether or not the adult is engaged in coaching or is accompanying a team – will be disqualified. Any adults or older youth desiring to help can volunteer as a district event staff for the day.
- **ROLE OF THE ADULT PASSENGER: UNIT LEADERS ARE RESPONSIBLE** for the general well-being of the youth in their charge, including proper clothing and supervision. The Klondike Derby is a strenuous winter activity; boys who are not physically fit and properly conditioned should not participate. Please pay particular attention to warm & dry clothing, proper footwear and warm headgear. If in the opinion of the Inspection Team a Scout is not adequately prepared for the weather, the Scout will not be permitted on the trail. The role of the Adult passenger on the sled will be limited to that of a passive passenger and observer. They may enter & leave the sled under their own power, but will NOT participate in the challenges, nor will they provide coaching or assistance to the team. Assistance or coaching from the adult passenger will be grounds of disqualification of the team.
- CODE OF CONDUCT: the Scout Law applies. Leaders please remind Scouts beforehand that failure to observe the Scout Law (e.g. through hassling other Scouts or swearing), will not be tolerated and may result in a time penalty, loss of nuggets, or disqualification.
  - A SCOUT IS TRUSTWORTHY: Tampering with or removing trail markers or placing obstructions on the trail will result in disqualification and discipline. Obstructing the trail for following teams will result in a substantial time penalty.
  - A SCOUT IS COURTEOUS: Passing is permitted. Slower teams being overtaken should pull to the side and yield to the faster team.

- EQUIPMENT INSPECTION. There will be an inspection for health and safety purposes prior to the Start. Team members must be dressed appropriately for the weather.
- JUDGES: In the event of conflict or rules dispute the decision of the event judges is final and cannot be appealed.
- SLED RULES
  - Sleds should be fashioned to look like an Alaskan dog sled. This rule will be liberally construed.
  - The sled should be large enough to carry all required equipment plus “passenger”.
  - A harness for pulling the sled by the scouts should be attached to the front of the sled. Ideally, looped ropes should come off a single main/trunk rope similar to the way in which branches on a tree come off a common trunk.
  - Due to strangulation risk and the risk of being trapped under a run-away sled if a scout slips, ROPE LOOPS MUST NOT BE LARGER THAN A HAND HOLD (APPROX. 6-9” LONG) in order to assure that loops are not able to be placed over any scout’s neck or around a scout’s waist.
  - The sled may be constructed of any materials (wood, timbers, pvc, fiberglass, aluminum, etc.).
  - Ski runners are legal.
  - Wheels on the sled are not allowed.
  - The sled must be returned to the start/finish line. If the sled breaks on the trail, the team must carry all the parts to the finish or be disqualified.
  - Sleds from a previous year’s derby WILL be allowed
  - Commercially purchased sleds meeting all safety requirements WILL be allowed.
  - If building your own sled, please do not use nails (other fastening means, such as screws or nuts and bolts, are preferred and much safer).
    - There are many Klondike sled plans on the Internet, check out the following links:
      - [www.lmdbsa.org/WinterCamporee](http://www.lmdbsa.org/WinterCamporee)
      - <http://inquiry.net/outdoor/winter/gear/sleds/>
      - <http://home.earthlink.net/~scouters/sled.html>
      - <http://scoutdocs.ca/Klondike/>
      - <http://media.scouting.org/boyslife/workshop/sledplans.pdf>

- SCORING – Teams will face challenges along the way and will be evaluated, timed and scored as they compete. The exact nature of the challenges is not to be revealed ahead of time, but teams competing in the Klondike Derby should be prepared with at least the items:
  - Fire Starting – teams should be prepared to start a fire and are allowed to bring tinder, a knife, a small hatchet, and a device or method to start a fire. But note that no lighters are allowed. Matches are perfectly acceptable; however, additional points will be awarded for teams that start fires WITHOUT matches (using flint & steel, friction, battery & steel wool, etc.) Liquid fuel, candles, or wax fire starters are NOT ALLOWED.
  - Knots – team members may be challenged to tie any of the knots included in the Boy Scout handbook and should be prepared to tie these when requested at a challenge station. All team members should have a length of rope (approx. 18” – 24”) with them in order to be able to demonstrate they have mastered these basic knots. Teams may also be challenged with additional knots such as the ones listed below.

- First Aid – all team members should be familiar with the First Aid requirements up through First Class Rank. Teams may be challenged with requirements from First Aid and/or Emergency Preparedness Merit Badges.
- BSA Knowledge – all team members should have memorized the BSA oath, law, promise & motto. In addition, all adult “passengers” may be challenged to know the Aims & Methods of the Boy Scouts of America.
- Orienteering – all teams should bring a compass (not a GPS), and should know their stride length and be able to estimate distance so they are able to complete an orienteering course similar to First Class requirement #2. This includes being able to estimate the height of an object.
- Outdoor Preparedness – All team members should be prepared to explain the “10 essentials” and the team should be ready to display any of the 10 items if requested. Teams should also either carry or be able to create a “signal” to attract attention if rescue is required (whistle, signal mirror, etc.)

- **Navigation.** Map in waterproof container and magnetic compass
- **Sun protection.** Sunglasses, sunscreen for lips and skin, hat, clothing for sun protection.
- **Insulation.** Hat, gloves, jacket, extra clothing for coldest possible weather during current season.
- **Illumination.** Headlamp, flashlight, batteries. LED bulb is preferred to extend battery life.
- **First-aid supplies**
- **Fire.** matches in waterproof container.
- **Repair kit and tools.** Knives, [multi-tool](#), scissors, pliers, screwdriver, trowel/shovel, duct tape, cable ties.
- **Nutrition.** Emergency food
- **Hydration.** At least 2 liters of clean water
- **Emergency shelter.** Tarp, [bivouac sack](#), [space blanket](#), plastic tube tent, jumbo trash bags, insulated sleeping pad.

## Dessert Cooking Competition

Your dessert must be prepared on-site on Saturday, February 16, 2018.

You may use any other outdoor preparation method. Good Luck!

### Grading Criteria

#### I. Plate Presentation

A. Overall Taste (flavor)	____/25
B. Texture*	____/20
C. Plate Layout / Space Ingredient*	____/20
Total	____/65

#### II. Scout Presentation

A. Clean Hands/Fingernails	____/10
