

2019 Lake Minnetonka Volunteer Recognition

Glowing Ember Award Kari Mensen Pack 3301 – Chaska

Kari has spent the past 7 years actively involved in our pack. For the past 4 years, she has been our activity director and has been the person behind the scenes making sure our pack runs smoothly and successfully. She has dedicated countless hours to our pack and her leadership and energy is will be missed

Fortunately, Kari has decided she needs to continue her quest to make Pack 301 amazing and unselfishly decided to become pregnant again so she can enjoy many more years of involvement in Pack 301! We are looking forward to having her back soon!
